A Sister Act to Remember

Sisters Hope and Faith have been living in two very different worlds. Stay-at-home mom Hope leads a family-centered life with her husband and three lively children, while Faith has been living the high life in Hollywood as a daytime soap opera star. But, when her character is unceremoniously killed off the show, Faith seeks refuge in the suburbs with her sister. In a flash, Hope's tidy world is up-ended by her celebrity sister's arrival. Can Hope share a roof with her larger-than-life sister and still hold on to normalcy and order?
